Design the basic UI of a web page

Activity 01: Write down the 7 steps of the web development process.

1.   5.
2.   6.
3.   7.
4.

Activity 02: Identify and List down the details for each section, which you might have for the homepage of the online hotel management system.

Section of web page	Details
Header	
Footer	
Navigation bar	
Side bar	

Activity 03: Design the home page of the online hotel management system and draw a wireframe of it using mockflow.
